

Dear Parent/Carer

We have recently bought into an online times table package to improve the tables knowledge and speed of recall of all pupils in Years 2 to 6. The children all should have a username and password for the program. It is recommended that they spend between 10 and 20 minutes each day playing on the games as this is proven to have a tremendous effect on their ability to recall and answer questions at speed, making all aspects of maths easier!

Pupils are able to access this on a home computer as well as by downloading the app to other devices.

Pupils are beginning to play the games and move their way up the school and year group leader boards.

Please could you ask your children to show you the program. Further information will follow as to how you can get involved with encouraging your child/children with the program.

On Friday 26th October we will be holding a Times Table Rock Star Launch. The children and staff will be able to come to school dressed as rock stars. I'm sure we will all have a 'rocking time'.

Thank you for your continued support.

Ms B Taws  
Year 5 Teacher
