

# Revision Timetable

## General tips:

1. Be **realistic**
2. **Concentrate** on areas where you are weak
3. Break down major revision subjects into **smaller parts**
4. Work out when you **study best** – use these times for topics that require the most effort
5. Keep assessing your performance and **change your timetable** accordingly

## Dealing with distractions – tips from undergraduate students

### Emails / Internet / Facebook

*"Keep yourself logged out while studying."*

*"Use **Leechblock** to reduce the amount of time you spend on facebook."*

### Phone calls and texts

*"Mute your phone and put it somewhere you can't see it! Check it when you have a break."*

### Television

*"Check the schedules for the things you really want to watch and set reminders on your mobile."*

### Food and drink

*"When I'm working at home, the kettle's always calling me! So I fill a vacuum flask at the beginning of my study session and keep it on my desk so I don't get up and lose my concentration."*

**Revision timetable** — *keep it realistic, build in social time, if you get behind just start again*
