What is punctuation?

- Punctuation is the system of signs or symbols given to a reader to show how a sentence is constructed and how it should be read.
- Sentences are the building blocks used to construct written accounts. They are complete statements. Punctuation shows how the sentence should be read and makes the meaning clear.
- Every sentence should include, **at least, a capital letter at the start a full stop, exclamation mark or question mark at the end.** This basic system indicates that the sentence is complete.

Why is Punctuation important?

- Punctuation marks are essential when you are writing. They show the reader where sentences start and finish and if they are used properly they make your writing easy to understand.
