

St. Mary's R.C.  
Primary School

Here at St. Mary's we use a range of schemes in order to deliver phonics sessions to the children. We combine Letters and Sounds, Phonics Bug and Jolly Phonics in order to develop a scheme that we adapt to meet the needs of the children within the school.

Within phonic sessions we also use reading books from Oxford Reading Tree to support phonics including Songbirds Phonics and Floppy Phonics. We also have access to texts from Phonics Bug which encourage children to segment and blend to help decode texts. These interactive books also give the option to hear the text read aloud to reinforce the text.

During phonics sessions we use interactive activities to support the teaching and learning of the children.
