

SCHOOL SPORTS GRANT 2016 – 17

ALLOCATION : £6,912 (as of June 2016 – further funding will arrive October 2016)

Breakdown	Committed	Spent	Planned Impact	Impact (Evaluation)
Outdoor and Adventurous Activities	£2,000		'SHINE' Day with emphasis on outdoor and adventurous activities to be planned. Children will access a range of activities that build on and extend key skills taught in P.E. (e.g. balance, coordination, critical thinking, team work, self confidence) in an outdoor context.	<i>This funding was re-allocated by authority of the Governing Body towards the installation of a running/walking/cycle track on the school yard. The addition of the cycle track has resulted in increased numbers of pupils taking up physical activity during playtime (walking, running or cycling) and more than doubled the number of children riding their bikes or scooters to school each day.</i>
Pilates (instruction and training for Unit children)	£870		A group of Unit children and a teacher will receive instruction in Pilates in an effort to improve their proprioception, co-ordination and core stability and thus improve their ability to co- ordinate movement. The teacher will then teach some of the core movements in school to a wider co-hort of pupils.	<i>This funding will be carried forward to the 2017-18 school year, due to limited available of Pilates instruction dates.</i>
PE equipment and resources	£3,424 (£650 for Unit resources / £2455 for mainstream resources)		Replace damaged equipment and ensure PE resources are available, appropriate and fit for purpose, to accelerate progress in P.E. Install a PlayPod on the school yard (shed with play and sports equipment, designed to promote physical activity, cooperation and develop motor skills and coordination / proprioceptive function). Provide training for staff around the principles of play.	<i>A full set of sports coaching equipment (cones, balls, etc) has been purchased for the school to replace and update the resources available. The PlayPod was successfully installed on the school yard and led to improved behaviour, rates of physical activity/teamwork and cooperation, as well as improved proprioception in pupils, as indicated by a reduction in First Aid incidents during play times.</i>
CPD for teaching staff (2x classes initially)	£618		Provide CPD for teaching staff via a 10 week block of coaching from an external provider. Staff members and PE Coordinator to agree the focus of each block of coaching (e.g. dance, football, etc). Raise subject knowledge for individual teachers, enabling them to	<i>Four teachers (and their classes) received 10 weeks of sports coaching with Adam James. Observation and self-evaluation demonstrate increased confidence and capacity in teachers delivering sports sessions, and rates of pupil progress within</i>

			teach lessons where children consistently make rapid rates of progress.	<i>lesson and over time have improved. These coaching sessions will continue in 2017-18.</i>
Swimming (KS2 pupils)	£718 (Autumn) £1530 (Spring/Sum)		By the end of KS2, all children will be able to swim at least 25 metres.	<i>All KS2 children have received swimming instructions, with Years 4, 5 and 6 receiving a six week block of swimming enhancement, improving their technique and skill, resulting in greater distances swum and at faster times.</i>
