

*Striving for excellence, inspired by Gospel values.*

Our 'Learning Timeline' is intended to provide a general overview of Science and Topic teaching throughout the year. Staff have designed their timeline to hook children into their learning and ensure curriculum coverage is effective. The time given to each topic is subject to change in order to ensure high levels of children engagement. In Year 4, Science and Learning Projects are taught in blocks one following on from the other. Languages and PE are taught weekly throughout the year.

Over the course of the year there will be short periods during which a normal curriculum timetable will be suspended to allow for whole school projects: The whole school will engage in a range of art activities during a termly 'Art Day'. Disability Awareness week will take place during the Spring term. Health week will take place during the Summer term.
