

KS3 History Homework Tasks

The home-work's set for KS3 have been designed in order to support our students learning and help them progress in the key skills and content required to do well in GCSE History. We will endeavour to set and collect home work at the same time for every class in KS3, however, it is important to note that in order to give our students an individualised experience, there may be variations in time scales. Furthermore, additional home-work tasks may be set in order to ensure that every student and class is challenged, these will be dependent on the judgement of the class teacher and will be *as well as* the below tasks (not instead of). All homework's are designed to take approximately 30 minutes.
