

KS3 Mathematics Homework

Frequency

All students will be set homework on a weekly basis in the Mathematics department and these homework's will link to topics covered in lessons or will be problem solving or skills based tasks. All students will be provided with a homework book and all work must be completed in this book and be submitted to the class teacher on a weekly basis.

Mathematics Topics:

For a list of topics please see the KS3 Mathematics overview.

Types of homework year 7 and 8

Week 1: Hegarty Maths online homework. This will be topic related and will be completed using the online package Hegarty Maths. Students will be expected to set out their work in their homework books and self-assess their work (see Hegarty homework guide).

Week 2: Written homework. These will be worksheets to consolidate topics covered in previous lessons or a worksheet covering general mathematical skills. Homework could also include revision for topic tests and assessments.

Other types of homework may be set according to the needs of individual students to support and challenge their learning.
