

## **KS4 Design and Technology**

Students will be set fortnightly homework from their subject teacher that will cover topics from the course specification. There is also an ongoing homework expectation that students are working on their NEA and revision in their own time, to maximise their final marks and to meet/ exceed their destination grade.

### **Frequency of homework for KS4 students:**

Students will be set 1 homework per fortnight that will cover topics from the course specification. Each homework will take approximately 1 hour to complete.
