

Joseph Swan  
Academy

25<sup>th</sup> May 2018

Dear Parent / Carer

I am very pleased to announce that Joseph Swan Academy has been allocated a grant of £762,400 to replace the windows and the curtain walling in specific parts of the Academy. This will transform the Geography, History, Business and Art areas of the Academy. This will also renew the area around the Quad which we will then develop as an additional learning location.

We are very pleased to have been one of a small numbers of schools in the North East to be a recipient of a grant of this high amount of funding. This money was allocated after a very rigorous application submission process. The work will start as soon as we finish for the summer term with majority completed by September for the start of the new academic year.

I look forward to sending you artist impressions of the plans of our building with the proposed changes.

This is fantastic news for Joseph Swan Academy.

Yours faithfully

Miss H E Scott  
Head Teacher
