## **Planned Boiler Work**

Work will begin soon to replace the main boiler for the school. This is a different boiler to the one which was replaced last year.

The work will not mean any planned closure of the school, as a temporary boiler will be used throughout the work period to install the new one.

The temporary boiler will be situated outside the main boiler house, at the bottom of the drive. Any vans dropping off equipment etc will not be on the premises during entrance and exit times. The whole work schedule is also being overseen by the LA Health and Safety advisor.

We hope the work will begin at the end of January/beginning of February and we will keep you updated on progress.
