A* RS GCSE 2017

"I believe that RE is a fundamental subject, and though it was a compulsory subject for me I would've definitely chosen it.

You can achieve a high grade, instead, RE is about building upon the information you started learning in year 7.

RE is a subject that gives you knowledge applicable to any job sector, whether you want to be a doctor, lawyer, architect or account having the ability to fully comprehend others beliefs and cultures makes you an asset in any workplace. Unlike certain topics in GCSE, RE is a subject which you will definitely have use for when you leave school.

SO If you're willing to engage in discussion and widen your knowledge then pick RE!"

RE is one of the most important subjects you can take at GCSE. The subject itself teaches you many important life skills. Living in a world full of different religions it's important to understand different beliefs and be able to connect with people and tolerate each other.

Throughout the world now there are tensions in the Middle East, wars breaking out and even some of our world leaders holding racist and extreme views. The study of RE will help you understand the way these people think and truly how illogical they can be. But that's not all, the philosophy side of RE teaches you critical thinking and argument formulating skills.

One of the most important skills RE can teach you is questioning, in RE prepare for your mind to be confused and challenged, as you have interesting discussions about our existence, does God even exist and what is the meaning of life? Only take RE for GCSE if you're prepared, it is tough work but you'll realise the benefits of it when you achieve that final grade.
