Dear Stakeholders (Governors, Staff, Parents/Carers and Students)

RE: SCHOOL DEVELOPMENT FUND

As the autumn term draws to an end, I write to you to share my appreciation for your contribution to the School Development Fund for the academic year 17/18. Although we didn't manage to meet the School target, we did manage to raise just over £10,000. Thank you so much to those that contributed to this total. Those that didn't, don't worry, they'll be another opportunity to contribute to the Fund for the current year 18/19.

The funding raised last year will be spread across upgrading our current servers, purchasing a new server which will improve response, capacity and workload across the IT network, much needed tablets for SEND students, physical computing devices such as Arduino class packs, Raspberry Pi kits, robots sets and a 3D printer. If there are sufficient funds after this spend, we would like to purchase components to run a PC building workshop once or twice a year. It is quite a popular request from our students. We will happily accept computer hardware resources to facilitate this great opportunity. If you feel you can help then please contact the Upper School Office.

The investment in these resources is aimed to improve the experiences the students have, in and out of the classroom at Enfield Grammar School and also allow teachers to be more efficient and effective when using IT to enhance their lessons and thus the learning experiences of the boys.

Thank you all again for your generous contributions. Please keep an eye out for a letter towards the end of January, giving you the details for the current year's School Development Fund project.

Yours sincerely

C Lamb
Headteacher
