Centre of Excellence

On the 14th November this year Young Money, the financial education charity held its annual Centres of Excellence conference in Birmingham. The event celebrated schools and colleges

who are committing to developing and continuing excellence in financial education.

Enfield Grammar was one amongst those who received the award for achieving this. It took Enfield Grammar approximately 1 academic year to achieve the accreditation which will last three years.

“Prepare our learners for success in an ever changing world and empowering student aspirations to achieve financial well-being and happiness”

For more information about what Enfield Grammar has done please see below:

My BNK workshop

Some of the exciting activities the students participated in was the My BNK workshop. The aim for the day was "To empower young people to take charge of their future by bringing money to life".

The boys went through several activities identifying the importance of money. They also understood the difference between their "wants and needs" and how this will change throughout the different stages of the lives.

Premier League Enterprise Challenge

It is the third year running Enfield Grammar will be participating in the exciting national competition "The Premier League (PL) Enterprise Challenge".

5 Year 10 boys (*Luca Pacone-Michael, Frankie Cowley, Sydney Obika, William Linsell and Ben Wilson*) will deliver their

presentation in front of a panel of guest judges Friday, 7th of December. The presentation will be on how to increase awareness of football for 18-23 year olds.

They will be representing the school and Tottenham Hotspurs Football Club against 4 other schools and hopefully get into the next round of the competition. We wish them the very best of luck

Young Enterprise Challenge

Students of Enfield Grammar school are taking part in a year long competition to create a business from scratch.

The business "Youth of London" decided to sell water bottles to schools. This is to get young students to start drinking more water at a younger age.

Some of the activities the owners of "Youth of London" had to do was raise finance for their idea, manufacture and market the product. They have a few months left and hopefully the boys can make a profitable business out of their idea.

Santander Moneywise workshop

Money Wise session which was run by Santander Volunteers and designed for year 10 students based around the idea to promote financial education. The aim of the session was to help students understand the importance of managing money and future aspirations.

Form time activities

From year 7 -10 there are various financial lesson in place for form time.

Some of the topics for year 7 and 8 include debt, savings, financial transactions, wants and needs. For year 9 and 10 they include debt, budgeting, tax, national insurance and money management.

The aim of the sessions are for students to gain an understanding of the importance of finance. In addition, gain knowledge to be confident to make informed decisions about their finances throughout the different stages of their lives.
