

November 2017

Dear Parent/Carer,

Key Stage 3 Science study guide

During the course of Key Stage 3 Science, your son/daughter will be completing a number of tests and assessments after learning various topics.

To help support their learning, we would like **all students** to have a revision guide, to not only help prepare for these assessments, but to further their learning and understanding of Science.

We highly recommend, and will be selling in school, the New KS3 Science Complete Study & Practice (with Online Edition). The Complete Study & Practice guide is fully up-to-date and contains clear, friendly notes, diagrams and examples on spacious, easy-to-read pages.

There are also plenty of summary and test-style questions, plus mixed topic tests and a practice exam, all with answers at the back of the book. This is an excellent opportunity for students to practice self-testing, to reinforce their understanding.

The book comes with a free Online Edition. This means it can be accessed on any PC, Mac or tablet!

We can offer this book at a reduced price of £5.50 and it will cover the **whole of Key Stage 3 Science**. We believe using this book could really help students to better prepare for their assessments and they will begin to learn the revision skills necessary for when they reach GCSE level. We hope that you will support us in your child's learning by purchasing this guide.

Please make payment of £5.50 on ParentPay by Wednesday 13th December. If you wish to make a payment via Paypoint, please contact the school office.

Once payment has been made, students can come and collect their book from room B20 on a Friday lunchtime only.

Yours sincerely,

Charlotte Murray

Assistant Faculty Leader – Key Stage 3 Science
