

LISTER COMMUNITY SCHOOL Data Protection Policy

Lister Community School collects and uses personal information about staff, pupils, parents and other individuals who come into contact with the school. This information is gathered in order to enable it to provide education and other associated functions. In addition, there may be a legal requirement to collect and use information to ensure that the school complies with its statutory obligations.

Schools have a duty to be registered, as Data Controllers, with the Information Commissioner's Office (ICO) detailing the information held and its use. These details are then available on the ICO's website. Schools also have a duty to issue a Fair Processing Notice to all pupils/parents, this summarises the information held on pupils, why it is held and the other parties to whom it may be passed on.

Purpose

This policy is intended to ensure that personal information is dealt with correctly and securely and in accordance with the Data Protection Act 1998, and other related legislation. It will apply to information regardless of the way it is collected, used, recorded, stored and destroyed, and irrespective of whether it is held in paper files or electronically.

All staff involved with the collection, processing and disclosure of personal data will be aware of their duties and responsibilities by adhering to these guidelines.

What is Personal Information?

7. Personal data shall be kept secure i.e. protected by an appropriate degree of security;

8. Personal data shall not be transferred to a country or territory outside the European Economic Area, unless that country or territory ensures an adequate level of data protection.

PROCEDURES FOR RESPONDING TO SUBJECT ACCESS REQUESTS MADE UNDER THE DATA PROTECTION ACT 1998

Rights of access to information

There are two distinct rights of access to information held by schools.

1. Under the Data Protection Act 1998 any individual has the right to make a request to access the personal information held about them.
2. The right of those entitled to have access to curricular and educational records as defined within the Education Pupil Information (Wales) Regulations 2004.

Actioning a subject access request

1. Requests for information must be made in writing; which includes email, and be addressed to the Headteacher. If the initial request does not clearly identify the information required then further enquiries will be made.
2. The identity of the requestor must be established before the disclosure of any information, and checks should also be carried out regarding proof of relationship. Evidence of identity can be established by requesting production of:
 - passport
 - driving licence
 - utility bills with the current address
 - Birth / Marriage certificate
 - P45/P60
 - Credit Card or Mortgage statement

This list is not exhaustive.

3. Any individual has the right of access to information held about them. However with children, this is dependent upon their capacity to understand (normally age 12 or above) and the nature of the request. The Headteacher should discuss the request with the child and take their views into account when making a decision. A child with competency to understand can refuse to consent to the request for their records. Where the child is not deemed to be competent an individual with parental responsibility or guardian shall make the decision on behalf of the child.
4. The school may make a charge for the provision of information, dependant upon the following:
 - Should the information requested contain the educational record then the amount charged will be dependent upon the number of pages provided.
 - Should the information requested be personal information that does not include any information contained within educational records schools can charge up to £10 to provide it.
 - If the information requested is only the educational record viewing will be free, but a charge not exceeding the cost of copying the information can be made by the Headteacher.

5. The response time for subject access requests, once officially received, is 40 days **(not working or school days but calendar days, irrespective of school holiday periods)**. However the 40 days will not commence until after receipt of fees or clarification of information sought.
6. The Data Protection Act 1998 allows exemptions as to the provision of some information; **therefore all information will be reviewed prior to disclosure**.
7. Third party information is that which has been provided by another, such as the Police, Local Authority, Health Care professional or another school. Before disclosing third party information consent should normally be obtained. There is still a need to adhere to the 40 day statutory timescale.
8. Any information which may cause serious harm to the physical or mental health or emotional condition of the pupil or another should not be disclosed, nor should information that would reveal that the child is at risk of abuse, or information relating to court proceedings.
9. If there are concerns over the disclosure of information then additional advice should be sought.
10. Where redaction (information blacked out/removed) has taken place then a full copy of the information provided should be retained in order to establish, if a complaint is made, what was redacted and why.
11. Information disclosed should be clear, thus any codes or technical terms will need to be clarified and explained. If information contained within the disclosure is difficult to read or illegible, then it should be retyped.
12. Information can be provided at the school with a member of staff on hand to help and explain matters if requested, or provided at face to face handover. The views of the applicant should be taken into account when considering the method of delivery. If postal systems have to be used then registered/recorded mail must be used.

Complaints

Complaints about the above procedures should be made to the Chairperson of the Governing Body who will decide whether it is appropriate for the complaint to be dealt with in accordance with the school's complaint procedure. Complaints which are not appropriate to be dealt with through the school's complaint procedure can be dealt with by the Information Commissioner. Contact details of both will be provided with the disclosure information.

Additional Information

CCTV cameras are installed throughout the school for health and safety and security purposes. Recordings are kept for 30 days.

The Data Protection Act is unlikely to apply in most cases where photographs or videos are taken in schools and other educational institutions.

If photos are taken for personal use they are not covered by the Act.

Examples

Personal use

- A parent takes a photograph of their child and some friends taking part in the school Sports Day to be put in the family photo album. These images are for personal use and the Data Protection Act does not apply.
- Grandparents are invited to the school nativity play and wish to video it. These images are for personal use and the Data Protection Act does not apply.

Official use

- Photographs of pupils or students are taken for building passes. These images are likely to be stored electronically with other personal data and the terms of the Act will apply.
- A small group of pupils are photographed during a science lesson and the photo is to be used in the school prospectus. This will be personal data but will not breach the Act as long as the children and/or their guardians are aware this is happening and the context in which the photo will be used.

Media use

- A photograph is taken by a local newspaper of a school awards ceremony. As long as the school has agreed to this, and the children and/or their guardians are aware that photographs of those attending the ceremony may appear in the newspaper, this will not breach the Act.

Photos taken for official school use may be covered by the Act, so parents and students should be advised why they are being taken. Parents may opt out of photos taken. Guidelines for staff are outlined in the E-Safety Policy.
