

Curriculum

The ethos of our curriculum is to deliver a thematic skills based approach which embeds emotional literacy, personal and social skills as well as basic ICT, literacy and numeracy skills into all aspects of learning.

In addition to the curriculum we focus on the skills our children will need to be an effective member of British society. Through our personal, social, health and citizenship curriculum, social and emotional aspects of learning (SEAL) family group projects, school council and our school ethos we aim to develop in our children the skills and attitudes they need to be successful rounded young people and adults.

We felt the thematic skills based approach would best meet the needs of our children whilst ensuring enjoyment and a love of learning.

Each year group has mapped out the national curriculum coverage and incorporated all learning into a 2 year cycle of skills based planning. This is delivered through a thematic approach each half term.

Please see below for your child's coverage map
