

Dear Parent / Carer,

I am delighted that Dunn Street Primary will be continuing to work with Sustrans this coming year to help promote healthy and sustainable transport for the children, parents and staff. The project works with South Tyneside Council and aims to increase cycling and walking levels for children and their families travelling to school.

As part of next week's Big Shift school travel week, next Thursday, 8th October, 8.15am – 8.45am, there will be a delicious FREE Biker's Breakfast available for all children and family members who can cycle or scoot to school that day. Not only that, there'll also be a raffle of bike accessories available for anyone who attends!

Mr Reader and his staff at Dunn Street Primary are very keen to work with Sustrans and are keen to ensure safety is of paramount concern, and that children cycling do so safely. Please can you ensure that your children wear cycle helmets if they have them?

I really hope that you can make it!

With best wishes,

Peter Gulbrandsen

South Tyneside Schools Officer
