LEBD Apprenticeships Information Evening – Tuesday, 5 March 2019, 6.00 pm – 7.30 pm

LEBC Office - 30 Frog Island, Off North Bridge Place, Leicester, LE3 5AG

National Apprenticeship Week 2019

Are you interested in finding out more information about apprenticeships? LEBC are holding an apprenticeships open evening at their office in Leicester during National Apprenticeship Week 2019.

We will be showcasing amazing apprenticeship opportunities involving degree apprenticeships and making you aware of how apprenticeships can help to build a successful career.

You will also have the chance to hear from some current degree apprentices who are on their journey and a degree apprenticeship employer.

There is also a chance to find out more about how to access a fully funded work experience placement if you are in search of an apprenticeship.

How to Book a Place:

If you would like to attend this event then simply confirm your place by emailing your name and your current school/college to grace.ladkin@leics-ebc.org.uk

Car parking is available onsite.

Apprenticeship Day

This is to apply for an apprenticeship open day at Mattioli Woods. You have to book in to confirm a place.

Last chance to earn whilst you learn with Morrisons!

Now you don't have to choose between starting your career or studying towards a degree. At Morrisons, we are giving hard-working school and college leavers the chance to have the best of both worlds.

Our Manufacturing Degree Apprenticeships allow you to work towards a degree while preparing for a brilliant management career within our unique food retail business.

Not only do we pay all your course fees for you, but you also get to work and earn a salary while you're studying – so money is never a concern.

Manufacturing

We're the UK's 2nd-largest fresh food manufacturer and that puts our manufacturing team right at the heart of our business. Along the way, you'll learn how to run production lines and lead production teams while getting to grips with a wide range of manufacturing equipment, processes and technologies.

Achieve a valuable degree

While you're working with us, you'll also be studying towards a Bsc (Hons) Management and Business at the University of Bradford.

Balancing work and a degree course will be challenging. But we'll offer you at least half a day leave a week to concentrate on your university studies.

And, in return for your hard work and determination, you'll gain full chartered membership of the CMI (Chartered Management Institute).

What you'll need to join us

We're looking for resilience, determination and good leadership skills, along with the flexibility to meet the changing needs of our business. You'll also need a minimum of 104 UCAS points (based on the new UCAS tariff or 260 based on the old tariffs).

Find out more and apply here: <https://careermap.us7.list-manage.com/track/click?u=ad6ea66c62b50396e776ca853&id=a10df0ccc7&e=c80ff0ea28>

Building a Brighter Future - JCB

In every corner of the world you'll find a JCB machine. JCB is one of the world's top three manufacturers of construction equipment.

We employ around 11,000 people on four continents and sell our products in 150 countries through more than 2,000 dealer locations. Today, JCB has some of the finest engineering facilities across the globe, produces a range of over 300 machines and maintains a reputation for unrivalled customer service.

We are proud of our achievements and recognise that future success depends upon us attracting and nurturing the finest talent. Our structured training schemes and academic study programmes will enable you to develop the skills and knowledge needed to reach your full potential. As an apprentice you'll do a real job alongside experienced professionals and get paid for it. This is much more than an alternative to university: it's a chance to prove yourself within a company that's famous all over the world.

Whether you have studied for GCSEs or A-Levels, you'll find that a JCB apprenticeship and career can open up a world of opportunities for you. Apprenticeships usually take between 1 to 4 years to complete depending on attitude and progress.

Applications will open in October 2019 for our 2020 programmes. If you would like to find out more you can come and speak to us at What Career Live? Birmingham on 1 & 2 March or visit our website.

Tesco - Apply now for our F&F Clothing Apprenticeship

Olivia is our Buying Assistant for Ladies Jersey, and has just started her second year of her F&F Clothing Apprenticeship. She chats to us about her experience so far.

"I knew I didn't want to go to university, but knew I wanted to gain work experience within the fashion industry and wanted to earn money doing this. I really loved that this apprenticeship gave you the opportunity to experience both merchandising and buying. The favourite part of my job are the fit sessions with the models, this is a more technical part of my role. Our models try on the different pieces of clothing and we evaluate how the product looks, fits and feels. It's great because I get to add value! My team are really inclusive. We are quite a social team, we go out after work and go to lunch together. My manager and my team are really accommodating to my apprenticeship.

With not going to university I thought I would lose out on having another group of friends, but I've met some great people and they will be life-long friends."

If you're interested in starting a career in fashion, check out our website for more information about our F&F Clothing Apprenticeship and apply <https://www.tesco-programmes.com/apprenticeships/ff/>

4 March 2019

IT Technician Apprenticeship with Better IT!

Job Description: Better IT

Company Overview:

Established for over 14 years, Better-IT Limited works with and supports a range of SME clients predominately in Leicestershire. We provide and support, networking, hardware and software including telecoms solutions utilising a range of platforms including cloud solutions.
