Years 5 and 6 School Nurse talks – Puberty and Relationships

Dear Parents / Carers,

The school nurse will be coming into school next week to talk to year 5 about puberty and year 6 about puberty and relationships, including the human life cycle. This is a very important part of the non-statutory curriculum and we hope all children will take part.

As it is non-statutory you have the right to withdraw to child, however please be aware that they may seek to find out about these topics themselves from less reliable sources. If you wish to **withdraw** your child from their session, please let the office know before Tuesday.

Yours sincerely,
The Year 5 and 6 Team
