

September 2018

Dear Parent/Carer

Year 7 & 8 Food Technology 2018-2019

As you may already know, students in years 7 and 8 will undertake one term of Food Technology per academic year. This means that each child will experience approximately 7 practical lessons per year. In these sessions each child will prepare and cook their own product or dish to take home. Please could you ensure that for these lessons, your son/daughter brings a container to take the food home in.

We also ask that rather than bringing ingredients in to school, which can be inconvenient and more costly, that you make a contribution of £10 at the beginning of the school year. If you are able to make a greater contribution it will be most gratefully received. We have found this system very popular for busy families and it also ensures that all students can take part in cookery lessons.

Please pay online – click on the Wisepay button on our website and log in using the details sent to you. If you have lost your log-in information please contact the school office.

If you require any further information please do not hesitate in emailing me gdouch@chathigh.co.uk

Yours sincerely

G Douch
