

Hardworking Pupils Transform the Library

At Cardinal Wiseman we believe that reading for pleasure and meaning is key to the success of our students, and have therefore made some changes to the daily DEAR sessions. We will continue the DEAR programme, but convert the format from daily independent reading sessions to collaborative reading sessions, now termed, guided reading.

With this in mind we have restructured our Library, re-organising all novels into specific genres, such as, action and adventure, science fiction, fantasy, and comedy, which will enable students to find their favoured read quickly.

Transforming the library has taken some time, and frankly would not have been possible without the hard-work of our passionate and dedicated student librarians, namely, Courtney, Sophia, Elizabeth, Tatum, Katie, Hannah and Tayla.

We would like to thank our student librarians for their tenacity and perseverance. They are amazing! Thank you.
