Christopher Richard Carter

I have two children at Oathall, Bea in Year 8 and Felix in Year 10. I am a Software Engineering Director for American Express in Burgess Hill and would bring my experience in technology and data to support the school's development in a challenging financial and governance environment. I am passionate about the school; as a family we've got so much from it from showing farm animals at the South of England Show to being part of many musical events. As a governor I'd be an honest friend, working to keep Oathall special for years to come.

Penny Canepa-Anson

I would like to become a Parent Governor to support the school and help create an environment for all pupils to reach their potential, academically and in other aspects of school life. I really enjoyed working with others in the OPTA team responsible for the recent crowdfunding campaign. I have children in Years 8 and 10 and feel a long-term commitment to the school. My professional experience in fundraising and management in the non-profit sector means I am familiar with the challenges of limited budgets and the need to take a strategic approach to decision-making.

Rachel Hepworth

Like every parent, we wish the very best for our children – to be happy, confident, to reach their full potential by becoming the greatest they can be.

As a parent I want to support the school but when necessary to speak out on behalf of the parent body for what is important. There is nothing more important than our children.

I work at a local primary school and am a trustee of a charity which is associated with Jamie's Farm.

As a parent governor I will always try to evaluate and make decisions from the view point of parents/carers of our whole school community.
