

Stay Safe Parents and Carers Session held in partnership with NSPCC & Barnardo's

**Thursday 14th March, 2019 - 6pm – 8pm
Sackville School, Lewes Road, East Grinstead, RH19 3TY**

Parenting can be tricky at times; especially as children develop into adolescence and beyond.

Whilst there are plenty of resources for parents and carers of young children, it can often seem like there is less information for parents as their children grow older. That's why we are delivering the following **Free** Stay Safe session with the support of NSPCC and Barnardo's. Topics will include online safety, child sexual exploitation, the Prevent agenda and warning signs of radicalisation. The training is aimed at 7-12 year olds; however parents with younger and older children may also find it useful.

This session will help to build your confidence and knowledge of the online world, as well as enabling you to have conversations with your child about ways that they can protect themselves. Your child does not have to be a pupil at Sackville School for you to be able to attend.

We also welcome family and friends to attend, because we all have a role to play in helping keep children, young people and vulnerable adults safe online.

Places are limited - to confirm your place at this free event, please email communitysafety.wellbeing@westsussex.gov.uk referencing 'Stay Safe 14th March Sackville school' with your name, and how many spaces you'd like.

Many thanks,

Marcus Clack,
